STAND HIGH ABOVE THE CROWD WITH A SATELLITE TOWER

DESIGNED TO DELIVER YOUR MESSAGE FROM ALL ANGLES WITH AN ELEGANT APPEARANCE THAT INVITES ADMIRATION.

SATELLITE’S fundamental pillar shape also lends itself well as a key architectural component to large-size exhibits. SATELLITE comes standard in a 3-section tower or a 4-section hi-rise to meet your specific communication needs. With removable seamless graphic panels, it can be dressed to fit each occasion.

SATELLITE assembles in minutes and come down just as fast. The new and improved SATELLITE come with hubs, folding top/bottom scissors that are pre-installed for your utmost convenience. Expand the lightweight frames, lock them into place and connect the panels. When you’re done, simply take down the graphics and fold the collapsible frames together.
SATELLITE SPECIFICATIONS

MATERIALS

FRAME: Aluminum telescopic poles with formed steel base.
GRAPHIC: Polyester fabric, single-sided printing with pole pockets on all four corners.
CASE: Single nylon case with strap.
