

# PORTABLE SCREENING BOOTHS

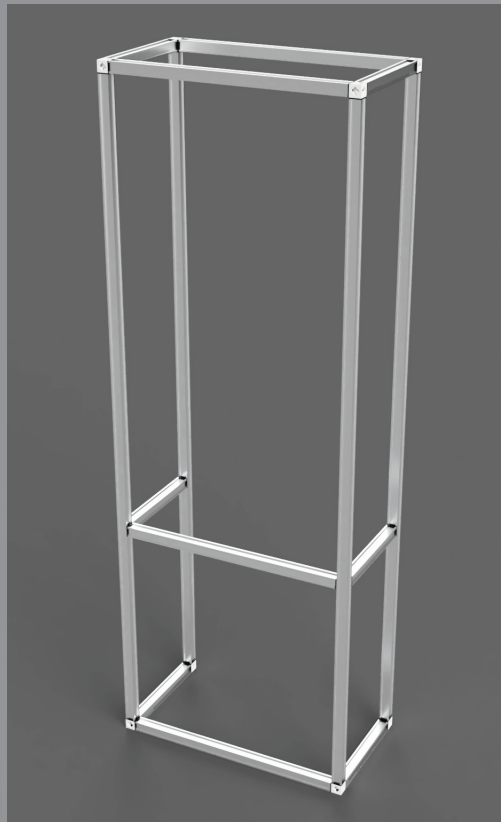

Keeping Health Workers safe during the patient screening process

- QUICK SET-UP WITH NO TOOLS
- PROTECTIVE OFFSET PLEXIGLASS WINDOW
- SINGLE OR MULTIPLE STATION CONFIGURATIONS

Designed to protect health care workers while taking information in the screening process through a two level plexi speaking portal

1 Pull the case to the location

2 Assemble the frames

3 Attach the panels and plexi window

- Non-porous surfaces are easy to sanitize
- Booths on casters in multiple sizes
